ASSESSMENT CRITERIA

The Minister for Planning in his Minister's Guideline (MG/12 dated June 2005) has set out the objective and decision guidelines that Council must have in regard to when considering varying a design and siting standard.

Note: If any matter set out in the guideline is not met, then Council **must refuse** consent.

Objective: To ensure that the height and setback of a building from a boundary respects the existing or preferred character and limits the impact on the amenity of existing dwellings.

Decision Guidelines: The reporting authority may give its consent where a single dwelling, does not comply with regulation 414 of the Building Regulations 2006, if -

- (a) the setback will be more appropriate taking into account the prevailing setback of existing buildings on nearby allotments; or
